Work the Room

No one-trick ponies here. Abound helps organizations look buttoned-up by creating a unified aesthetic for a host of spaces. From open environments to teaming spaces and private offices, Abound offers a crisp, modern take on an architectural aesthetic.

Shown with Flexion™ Seating and Universal Screens.

Shown with Preside® table and Flock® seating.

It's a Cinch

Hassle-free. There's no other way to describe just how simple it is to install and reconfigure Abound. We've even made power and tech a breeze to lay-in and switch up as needed. Designed with durability and flexibility in mind, Abound is perfect for organizations that undergo frequent change and need it done in a snap.

TILES

Ready for a new look? You can easily switch out tiles to achieve different aesthetic or functional goals. Tiles can be placed in interchangeable positions up and down a panel frame.

FEWER PARTS, MORE OPTIONS

Abound not only works everywhere, it's easy to install anywhere. With a minimal kit of parts and intuitive universal connectors, Abound can be specified, ordered, installed and reconfigured quickly.

POWER UP

Position power and data outlets at the desktop, panel base, or both. Lay-in capabilities—electrical and data in the baserail or data in the top channel—expand cabling capacity and make reconfigurations easy.

Shown with Mav™ lounge seating and Scramble™ table.

Make it Yours

Looks AND personality. Throw in hard-working, and you've got yourself a winning combination. When it comes to design flexibility, interchangeable Abound tile options support every kind of aesthetic and work style to reflect the distinctive character of your organization.
